## FOR IMMEDIATE RELEASE

## Preservation Tree Services Acquires Greenleaf Professional Tree Service in Fort Worth.

### *Press release*

**Dallas, TX – (01/15/2016) – Preservation Tree Services**, Dallas/Fort Worth's premier professional **tree care company**, has acquired Fort Worth-based tree care company, Greenleaf Professional Tree Service.

To enable Preservation Tree Services to better serve their growing base of Fort Worth customers, they are currently expanding facilities and operations in the area. Preservation Tree had a longstanding relationship with Greenleaf Professional Tree Service (GPTS) and found them to be a perfect fit for their approach to tree care and service. By acquiring GPTS, Preservation Tree can now more quickly address the unique tree care needs in the Fort Worth area.

*Preservation Tree Chief Arborist, Billy Cook, inspecting established trees near the Fort Worth Colonial Country Club*

Preservation Tree already cares for high profile Fort Worth trees such as the **John Peter Smith oak, a Heritage Tree just north of the Kimbell Art Museum**; as well as many large established trees in some of Fort Worth's most historic neighborhoods.

Previous GPTS customers, and new Fort Worth customers, will now be able to take advantage of the expanded resources and services provided by Preservation Tree. Expert tree pruning to reduce storm damage and lengthen tree life, Earth-friendly fertilization and pest control treatments, soil aeration, planting services, and specialized tree protection are just a few key services Preservation Tree is known for.

In addition to the company acquisition, Preservation Tree has retained previous GPTS Certified Arborist, Bob Shea, to continue working with existing and new Fort Worth customers. In the Fort Worth office, Bob will join Chief Arborist, Billy Cook, an original founder of GPTS, now with Preservation Tree. Certified Arborist Getth Nelson also joins the Fort Worth office. Expect this to be a stellar team to care for and preserve Fort Worth trees.

For a complete list of services, weekly blogs, and tree care information, homeowners and business can visit their updated website at [www.preservationtree.com](http://www.preservationtree.com).

Preservation Tree Services looks forward to a growing relationship with the Fort Worth community.

## About Preservation Tree Services:

Preservation Tree Services sets the standards for tree care and provides sustainable, science-based tree care expertise to residential, municipal and commercial clients throughout the Dallas-Fort Worth area. They have a long history of skilled and reliable service and were one of the first organizations in Texas to earn accreditation from the Tree Care Industry Association. Individual staff members are certified by the International Society of Arboriculture and are actively involved in local environmental and sustainable organizations. Members of their staff hold degrees in various green industry disciplines. They also hold certifications in Oak Wilt management and Tree Safety.
